Saudi Arabia: 2024 Grantmaking Guidelines

Boeing's Focus in Saudi Arabia

The Boeing Company has a large presence in Saudi Arabia that is built on a more than 70-year relationship. We have been investing in the community for more than a decade. As the biggest aerospace company working in the country, Boeing is an important presence in Saudi Arabia and in the lives of people living here. Boeing Saudi Arabia has been one of the pioneering organizations in local community engagement and support. Since 2012, we've been active contributors to the local community. We have also supported critical and relevant causes in relation to STEM education and women empowerment. One of our focus in particular relates to training women with socioeconomic disadvantages in order to be independent and active participants in the labor force. Despite the challenging times with the imposed restrictions and limitations caused by the pandemic, Boeing's unfailing support and contribution towards our communities continuous without interruption.

We work within Boeing's community investment areas to develop a site-specific plan tailored to the particular needs of our region, focusing our grants on the strategies Our Future: Tomorrow's Innovators and Our Homes: Dynamic Communities.

Goal:

Create cradle-to-career pathways to strengthen and diversify the pipeline of skilled workers entering today's dynamic labor market. Advance 21st-century skills such as knowledge acquisition, creativity, innovation, critical thinking, problem solving, collaboration, media and technology literacy, self-direction and adaptability.

Concentration:
