

BUILDING THE FUTURE TOGETHER

Boeing in Europe

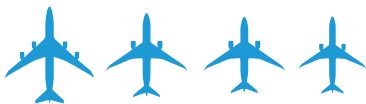

Boeing has been a part of the European aerospace community for more than 80 years, contributing to and benefiting from the region's tradition of innovation and excellence.

The company maintains solid relationships with stakeholders across Europe, including customers, governments, suppliers, research and development organisations, nonprofit organisations and regulatory bodies. In Brussels, the Boeing office represents the company's interests with all European institutions, supporting policies that advance the EU economy; promote sustainable growth; contribute to a safe, innovative and competitive aerospace system; and connect EU citizens and businesses.

Boeing continues to invest in European talent, skills and technologies, and is proud of the success of its enduring partnerships with European industry, governments and local communities.

 <p>5,500+ Boeing has more than 5,500 direct employees in Europe.</p>	 <p>190,000 Our programmes support nearly 190,000 highly skilled jobs in Europe.</p>	 <p>€25 billion Boeing sourced €25 billion in aircraft components from hundreds of European partners in the last 3 years.</p>
 <p>€4 million In 2018, Boeing announced an investment of more than €4 million for pan-European STEM projects.</p>	 <p>200+ Boeing Research & Technology-Europe scientists work with over 200 industry partners on advanced research initiatives.</p>	 <p>2018 Boeing opened its first high-tech European production facility in Sheffield (U.K.).</p>

Commercial

- **Deliveries:** Boeing has directly delivered over 4,600 commercial aircraft to more than 130 European customers in the last six decades.
